- Registered in California.

For use in:

- Hospitals, Schools
- Sanitary Establishments
- Lodgings

160 Detergent & Disinfectant

GASCO 160 Detergent & Disinfectant cleans quickly by removing dirt, grime, grease and any common dirt. This product can be used in hospitals, schools and universities, offices, hotels, motels, bathrooms, food service establishments and restaurants.

It is designed for use on the following hard, non-porous surfaces where disinfection is required.

Directions

Dilution: 1:32 One bottle produces 32 gallons (121 Liters) of sanitizing solution.

To use as a cleaner / disinfectant:

- Apply the solution to hard non-porous surfaces. You can use a mop and bucket or sprayer / atomizer.
- All surfaces must remain wet for 10 minutes.
- Clean by rubbing surfaces and allow to air dry.

When sanitizing food contact surfaces, such as kitchen tops and tables used for food preparation, cutting boards, appliances, and sinks, surfaces should be thoroughly rinsed with potable water. This product should not be used to clean utensils, glassware or dishes.
